

ACCELERATED MASTER'S DEGREE APPLIED PSYCHOLOGY

THE PROGRAM

A combined Bachelor and Master's program designed for Psychology majors seeking employment as the next step. It will provide practical experience in consulting through a required practicum with Applied Research Consultants (ARC), as well as an educational background in research methods, statistics, and program evaluation. This Master's degree can be obtained without the completion of a thesis. Students that follow the intended timeline will receive both B.A. and M.A. degrees in 5 years.

REQUIREMENTS

- 3.0 GPA
- B or higher in PSYC 211 & 311
